Academic Details

B.E. in Computer Science
Maratha Mandal Engineering College, Belagavi,
Karnataka | 2022 – 2026
(Expected Graduation: June, 2026)
CGPA: 7.6/ 10

Soft Skills

Analytical | Collaborator | Leader | Adaptable

Technical Skills

- Programming Languages: Python , c++ , SQL, html,
- Tools: Excel, Jupyter, VS Code
- Cloud: Google Cloud (Basics)

Core Competencies

Python Programming (Beginner–Intermediate)

Cloud Computing (Google Cloud Basics)

Problem Solving & Logical Thinking

Debugging

SQL & Database Fundamentals

Artificial Intelligence (Introductory Level)

Agile & Collaborative Learning

Communication & Teamwork

Personal Details

Date of Birth: 1st June 2004
Languages Known: English, Hindi, Marathi and Kannada
Address: Belagavi , Karnataka

Profile Summary

- Final-year Computer Science Engineering student with an interest in Artificial Intelligence, Machine Learning, and Data Science.
- Building knowledge through globally recognized certifications (Cisco Networking Academy, Google Cloud Skills Boost, HP LIFE, Deloitte Forage).
- Gained hands-on exposure to Python programming, data visualization (Power BI, Excel), and beginner AI projects.
- Enthusiastic learner seeking opportunities to apply and strengthen AI/ML skills through real-world projects and internships.
- Experience working on academic and personal projects such as voice assistants, predictive models, and interactive dashboards.
- Strong problem-solving mindset with the ability to adapt quickly to new technologies and collaborate effectively in team settings.

Academic Projects

1. Loan Collector Record Maintenance Application

December 2024

Tools: HTML5, CSS3, JavaScript, Bootstrap, Node.js, MongoDB, jsPDF

A web-based tool designed to streamline financial record management for loan collector by enabling real-time tracking of expected and collected payments, PDF report generation, and persistent local data storage.

- Developed the **frontend** using HTML, CSS, and JavaScript for a responsive user interface.
- Built the **backend** with Node.js and integrated MongoDB for loan and transaction record management.
- Implemented **real-time calculations** and **PDF report generation** using jsPDF and autoTable.
- Conducted **testing and deployment** on GitHub Pages, ensuring usability, performance, and data persistence.

A Real-Time Multimodal Social Media Analytics Platform

July 2025

Tools: React.js, Tailwind CSS, Chart.js, Python, FastAPI, MongoDB, Docker, HuggingFace Transformers, Microsoft Phi-3

A real-time, cross-platform social media analytics platform supporting multimodal analysis (text, images, metadata) with scalable and ethical design for brand monitoring, crisis detection, and sentiment insights.

- Developed **real-time data scrapers** for YouTube and Reddit to process comments, transcripts, and engagement metrics.
- Implemented **multimodal analysis** (text + metadata) using NLP models like Phi-3 Mini and HuggingFace Transformers.
- Designed an **interactive dashboard** with React.js, Tailwind CSS, and Chart.js for dynamic visual insights.
- Ensured **ethical, privacy-focused data handling** with scalable deployment using Docker and AWS.

Certifications

- Web Development Workshop** – upGrad & Maratha Mandal Engineering College, Belgaum (Aug 2023)
- Linux & Network Administration Workshop** – Cybersena & Maratha Mandal Engineering College, Belgaum (Jul 2024)
- Python Essentials 1** – Cisco Networking Academy (Aug 2025)
- AI for Beginners** – HP LIFE (Aug 2025)
- Technology Job Simulation** – Deloitte (Forage Virtual Internship) (Aug 2025)
- Getting Started with Artificial Intelligence** – IBM SkillsBuild (2025)
- Journey to Cloud** – IBM SkillsBuild (2025)
